
General Information

Third Faculty of Medicine, Charles University offers a 5 month preparatory course in English for international applicants.

The Intensive Premedical Course aims to give students a chance to be fully prepared for the successful entrance examination to study general medicine in the English program. The course focuses on biology, chemistry and physics – the subjects that are tested on the entrance exam for medical studies. In addition there are two other classes taught: Basics of Communication in the Czech Language and medical English.

The course is on the academic level of university education. The heads of the departments of the Third Faculty of Medicine supervises all lectures.

The faculty reserves the right to change the conditions as necessary.
