Child injury prevention

Dr Dinesh Sethi is Programme Manager for the Violence and Injury Prevention Programme at WHO European Region. He has worked in internal medicine and trained in public health, and worked as a Consultant and Senior Lecturer in Public Health in London.

He is editor and author of several European reports on preventing child maltreatment. He has successfully advocated for injury prevention by contributing to the development of the WHO Regional office for Europe resolutions on Preventing injuries in Europe and Investing in children: the European child maltreatment prevention action plan.

28. 2. 2017, 13:30
