# Open Doors Day for Applicants 2021

---

Are you thinking about studying medicine in Prague and choosing between faculties? Do you want to see what studying at the Third Faculty of Medicine looks like? Then join our **virtual visit of 3 FM CU on January 8th 2021** at <https://dod.lf3.cuni.cz> You will hear information about the admission procedure and the possibilities of master's and bachelor's studies. You will experience a typical lecture in biochemistry, the introduction of student associations TRIMED, YFMSA and others, but also virtual surgical suturing or first aid. With ZOOM, you will connect with your older colleagues and have the opportunity to chat with them.

Can't keep up with it on Friday, January 8? Never mind, the website will be available throughout the summer semester.
