

"

*Our modern curriculum aims at teaching in context and integrates individual subjects into larger, more meaningful modules.*

## Medical education Systems

The programme of study at our faculty incorporates latest trends in medicine and medical education and is close to programmes at progressive medical faculties in Western Europe and the USA.

## About University

Charles University was founded in 1348 during the rule of King of Bohemia and Holy Roman Emperor Charles IV. Our Faculty refers to the tradition of medical studies at Charles University as it formed one of the four basic subjects upon its foundation.

The teaching basis of the 3FM CU includes the University Hospital Královské Vinohrady, Psychiatric Centre Praha, Hospital Na Bulovce, Thomayer Hospital, Institute for Mother and Child Care, Hospital Na Homolce, Central Military Hospital and The National Institute of Public Health. Prominent experts of the Czech Academy of Sciences and Institute of Clinical and Experimental Medicine also participate in the teaching.

# Study programme

## General Medicine

Graduates from the Faculty achieve a complete medical education with extended knowledge in the area of preventive health care. After a successful completion of their studies, they are awarded the degree MUDr. (Doctor of Medicine, MD).

*Educational objectives are in accordance with European medical faculties program Euroskills-to which our Faculty joined.*

**01.** Before the first semester starts we invite all students to an intensive four-day orientation camp.

Throughout the programme we stress the significance of understanding how organ systems work, the importance of ethical approach and communication with patients, as well as understanding how medical systems work.

**02.**

**03.** Specialists will also aid you in joining research projects and provide you with information regarding organizations for students with social or psychological needs.

Length of the study:  
**6 years**

From the very beginning our students are in contact with patients.

Tuition fees:

420 000 CZK/Academic year  
approx 19 000 USD

The payment can be split into multiple instalments.

## Premedical course

### Preparation

for exams to General Medicine

The intensive premedical course aims to give students a chance to be maximally prepared for successful entrance examination to study General Medicine in English curriculum.

The course is devoted to biology, chemistry and physics – the subjects that are tested in the entrance examination for medical studies

### Tuition fees:

110 000 CZK (approx 5 000 USD)

The tuition fee does not include accommodation, textbooks, meals or health insurance.
