
General Information

Third Faculty of Medicine, Charles University offers a 5 month preparatory course in English for international applicants.

The intensive premedical course aims to give students a chance to be maximally prepared for successful entrance examination to study General Medicine in English curriculum. The course is devoted to biology, chemistry and physics – the subjects that are tested in the entrance examination for medical studies. In addition there are two other classes taught: Basics of Communication in the Czech Language and medical English.

The course is on the academic level of university education and is held in the Third Faculty of Medicine building in Prague. The heads of the departments of the Third Faculty of Medicine supervises all lectures.

Due to current situation there is a possibility the course will be held in on-line or hybrid form. The faculty reserves the right to change the conditions as necessary.
