Abstracts

Call for abstracts is now open for Oral presentations and Short Oral sessions. Each abstract will be assessed by the Scientific Committee for being within the scope of the Symposium (original research, protocols, methodology papers). The three best abstracts will be selected for full presentation within the Scientific Sessions and their authors will receive a certificate.

Abstracts in a standard structured format (background and aims, methods, results, and discussion) in a word document should be emailed to 4pass@if3.cuni.cz for consideration.
