
AMBOSS

All student licenses have already been dismantled.

In early June, non-activated licenses will be allocated, please watch the Center of Scientific Information and Trimed pages.

From January 2022, the Amboss fact-finding portal in English will be available at the 3rd Faculty of Medicine, providing access to an interactive library and tests for medical studies. Amboss is an educational portal designed for medical students and doctors.

Access is limited by the number of licenses. Licenses are always valid for one calendar year.

Student licenses

- Student licenses are for students of 6-1 years of the AVSEOB/1 and VSEOB/1 master's studies.
- Applications for licenses (activation codes) are submitted via the Amboss application at the 3rd Faculty of Medicine <https://amboss.lf3.cuni.cz> according to the timetable, always from the highest years to the lowest.
- In the case of free licenses (activation codes), the system automatically sends a unique license activation code to the interested party. Licenses are allocated based on the date and time the application is submitted. Application for licenses and allocation of license activation codes usually takes place at the end of the calendar year for the following year.
- If you receive a non-functional activation code, immediately contact SVI ([M. Hábová](#) or [A. Martinková](#)). We will arrange a code exchange.
- Register the license in the AMBOSS portal via the activation code no later than 5 months after receiving the activation code. After this period, the unused license will be offered via the Amboss application on the 3rd FM to other interested parties for whom the license is no longer available.

During the summer holidays, AMBOSS sends an overview of licenses allocated but not used (unregistered activation codes in AMBOSS). New applicants can additionally apply for these unused licenses during September and October through the Amboss application at the 3rd FM.

Teaching licenses

Teaching licenses are intended for PGS students of the 3rd Faculty of Medicine and teachers with tenure at the 3rd Faculty of Medicine. To be assigned a teacher's license, please register your application at <https://amboss.lf3.cuni.cz> . Registration of licenses for 2025 for teachers and PGS has no time limit.

We just ask you to send the information by e-mail to [M. Hábová](#) that you have applied for a teacher's license.

How to activate the license via activation code, video tutorial for working with AMBOSS

Instructions on how to activate the code are at <https://www.amboss.com/int/campus-access/czechelib>

Registration of license applications for 2025

The registration of license applications for 2025 will take place according to the timetable set in the application <https://amboss.lf3.cuni.cz> according to Trimed's recommendations.

Year 6 and 5 - AVSEOB and VSEOB: **28 December 2024**

4th and 3rd year - AVSEOB and VSEOB: **29 December 2024**

2nd and 1st year - AVSEOB and VSEOB: **30 December 2024**

Additional distribution of allocated but unused licenses - September and October 2025

Applications for 2025 student licenses submitted before the specified timeline are not accepted and will be removed from the system.
