MAY 29<sup>TH</sup> - JUNE 1<sup>ST</sup>

# 2024

# International Student Congress

The **International Student Congress (ISC)** is a prestigious annual event organized by students at the **Medical University of Graz**. It attracts around **200 students from over 45 nations** annually, offering a platform for interdisciplinary and intercultural exchange. Participants include students from all medically relevant fields, ranging from medicine to pharmacy and biomedical engineering. Primarily attended by students in the final stages of their studies, the congress also welcomes professionals newly entering the field.

The ISC primarily offers students the opportunity to embark on a successful foray into the world of **science and research**. Here, they can present their **research work** across various levels (Bachelor, Master, Diploma, PhD) and learn from the work of others. Our goal is to inspire and support the next generation of medical professionals and researchers.

The International Student Congress (ISC) is now recognized as one of the **most established medical student congresses in Europe**. It is also **Austria's largest student congress** in this field, distinguished not only by its high number of participants but also by an impressive online presence, with over 7,000 followers on Facebook and Instagram. The ISC aims for participants to remember the congress as a **memorable experience** and to establish lasting networks.

The ISC operates under the belief that both medical and scientific **progress** are primarily driven by **national and international cooperation**, with interdisciplinary knowledge exchange being essential. Hence, the congress is themed **“Creating the Future of Health Sciences.”**

# Event Details

## Date:

May 29, 2024 to June 1, 2024

## Venue:

Medical University of Graz and LKH Graz

## Participants:

Approximately **200 international students** from around 45 nations, representing their respective universities across medically relevant fields such as human & dental medicine, pharmacy, nursing sciences, natural sciences, biomedical engineering, and many others.

## Presenters and Leaders of Workshops and Pre-Courses:

Internationally  
Renowned  
Speakers for  
Keynote  
Lectures

Over 30 contributors  
from the Medical  
University of Graz,  
including experts  
from radiology,  
internal medicine,  
surgery, and  
external workshop  
leaders.

Involvement of  
additional  
student  
initiatives,  
including  
Sono4You Graz,  
AMSA, and AFÖP.

## Program:

The presentation of one's own research work is organized in the form of oral and poster sessions. These will be assessed fairly by a jury and prizes will be awarded for the best presentations.

In addition to the scientific presentations, the ISC also offers a series of practical courses. These courses cover a wide range of topics, from specialized medical procedures to emergency management. Congress participants not only learn medical expertise, but also get to know various companies that could be important in their careers.

Moreover, keynote lectures by leading experts in various fields are held on three of the four congress days, offering insights into different research areas and broadening the participants' horizons. Sufficient coffee and refreshments will be provided for the time between the individual events. During this time, students can exchange ideas with other participants, visit the sponsors' stands and build sustainable international networks.

Each day of the congress is rounded off by a social program, which includes a city tour and a town hall reception, so that participants can spend an unforgettable time beyond the actual congress.

## Organizer:

The International Student Congress (ISC) is organized, hosted, and developed by a **group of dedicated students**. The organizing committee consists of students from the **Medical University of Graz**, who **volunteer their time** to plan the congress. We have collaborated with numerous doctors, companies, and organizations over the years.

Our **vision** is to connect various professions and provide a platform for interprofessional exchange. This drives us to invest countless hours in organizing the congress, with the goal of making participants aware of the importance of **interprofessional collaboration** for better work environments and outcomes in medical care, as well as advancing scientific progress.

Each year, they are motivated by **increasing participant numbers and positive feedback** to continue and improve the congress. As a non-profit organization, it is important to us to make the congress accessible to all interested parties. That's why we deliberately keep ticket prices low (between 35 and 50 euros). We believe that everyone who is passionate about medicine and research should have the chance to attend.

For this reason, we would like to invite you to join us at our congress! Whether you are presenting your own research or just attending as a passive participant, we are happy about every guest who supports the vision of our congress and contributes to the international exchange!

# Abstract Submission:

## When?

The abstract submission period will be open from 15/12/2023 - 29/02/2024.

## How to submit?

1. Go to our website and follow the instructions to Conftool
2. Register at Conftool
3. Upload your abstract
4. Await review
5. Get accepted
6. Present at ISC (29.05 - 01.06.2024)
7. Win & be honored for outstanding work and presentation

## What research contributions to submit?

### Accepting a Wide Range of Studies:

- Randomized Controlled Trials (RCTs)
- Case Reports & Case Series
- Cohort Studies
- Cross-Sectional Studies
- Qualitative Research
- Systematic Reviews & Meta-Analyses
- Pilot Studies
- Experimental Research

### Open to All Academic Levels:

- Bachelor's Theses
- Master's Dissertations
- Diplom Projects Doctoral (PhD)
- Research Postdoctoral Studies
- Clinical Research by Medical Residents
- Independent Scholarly Works

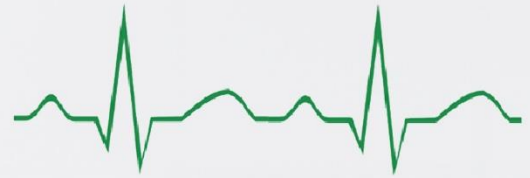

**Submit your abstract now and get honored for your work!**

**If you have any questions about the abstract submission or the ISC itself, please send us an email or a message on social media!**
