

**Offer of topics for Ph.D. study projects in Third Faculty of Medicine, Charles University in Prague**

Project:	<b>The psychological profile of patients with chronic tinnitus</b>
Mentor (Advisor):	<b>Doc.MUDr Dr.med. Aleš Hahn,CSc.</b>
Department:	ORL klinika 3 LF UK Praha
Contact information:	<a href="mailto:hahn@fnkv.cz">hahn@fnkv.cz</a> 267163171
Project Narrative: <i>(max. 500 characters including spaces):</i>	The task of the thesis is to evaluate the effectiveness of comprehensive treatment (nootropics +rehabilitation + physical therapy) in the patients suffering from chronic tinnitus. There will be used 3 structured questionnaires within a defined timeframe treatment of this symptom which negatively affects the quality of life. Patients will be filling daily 11 grade tinnitus scale questionnaire (0-10), reflecting the overall difficulty of tinnitus and further at intervals 6,12 weeks structured questionnaires dealing with the quality of their private / work / leisure / life, anxiety / depression and considerations related to negative mental adhesions, which are associated with tinnitus. These axioms will be compared with tinnitometry i.e.: measuring the frequency and intensity of tinnitus characteristic their changes during monitoring.
Requirements for student applicants: <i>(specify your requirements such as degrees or period after degree was granted)</i>	student of final year of medical faculties , graduate medical faculties
