

Conference

# Innovation in Healthcare

14. 10. 2025

9 AM – 4 PM

**Small Hall, Carolinum, Ovocný trh 3, Prague 1**

Please register for the conference using the following [link](#).

The conference will be held in English.

## About the event

Join us this October in Prague for a unique medical symposium celebrating innovation in healthcare and the long-standing collaboration between Lahey Hospital and Medical Center (Boston, USA), the University of Massachusetts, and Charles University.

This year's program will feature thought-provoking lectures from leading Lahey and UMass physicians on innovation and education in medicine, alongside presentations from Charles University's top experts in healthcare innovation.

Don't miss this opportunity to exchange ideas, build connections, and be part of an international dialogue shaping the future of healthcare.
