Charles University in Prague
Czech Republic

Dear colleagues,

In order to develop cooperation and promotion of scientific and educational exchanges between Belgorod State National Research University (BelSU) and Charles University in Prague we ask you to consider the possibility of concluding cooperation agreement, subject of which could be:

- a) conducting joint scientific research in the field of human genetics and medical genetics;
- b) development of various forms of networking concerning doctoral students education in the field of Biological sciences. Genetics;
- c) establishment of laboratory and regulatory framework for conducting joint research, and simultaneous training doctoral students both at BelSU and Charles University in Prague in the field of Biological sciences. Genetics;
- d) development of academic mobility programs, including scientific internships;
- e) international teacher's training.

The Belgorod State National Research University has the capacity to carry out research in the field of the molecular genetic basis of women's reproductive health, often occurring human diseases. The university has a laboratory of human molecular genetics, where different researches are conducted: association of genetic polymorphisms, gene-gene and gene-environment interactions with the development of hyperplastic diseases of the uterus (myoma, endometriosis), preeclampsia, fetal development delay, kidney disease, hypertension and etc.

We hope for close and mutually beneficial cooperation.

Sincerely,

Vice-Rector for International Cooperation

Vladislav Kuchmistyy
