

Dear,

Are you a medical student passionate about surgery and research? Do you want to reach the next level of your surgical skills? Do you want to make new friends and share your ideas?

This is the course you've been waiting for!!

The Romanian Students' Surgical Society (**SSCR**), Cluj-Napoca Branch, in collaboration with the "Iuliu Hațieganu" University of Medicine and Pharmacy Cluj-Napoca, invites you between the **22nd and the 29th of July 2018, in Cluj-Napoca, Romania**, to spend **6 unforgettable days** learning about experimental microsurgery, making new friends and discovering a city with almost 2000 years of history!

Skip boring and endless theoretical classes, come and see the world from a different perspective through the surgical microscope. This is the best chance for students to develop skills useful and absolutely necessary as a future resident/surgeon that depends on microsurgery or as someone who wants to have a career in experimental surgery. In the meantime, this camp tries to create a relaxed but also professional working atmosphere, that would allow the students to fulfill their educational goals and get to know other colleagues from other international medical centers, working as a team, building friendships, leading to better relationships between universities and setting the foundation for future national and international projects.

- hands on- microsurgical experience
- research steps - Why? When? How?
- more than 20 hours of working under surgical microscope
- best chance for students to try microsurgery

Subjects:

- Anatomy bases of animals used in experimental research
- Anesthetic techniques
- Drug administration methods
- Biological sample collection
- Preservation and monitoring of experimental animals
- Ethics, Statistics and Research
- Microsurgery basics

- surgical microscope
 - special microsurgery instruments
 - microsurgical knots
 - microsurgical sutures
- Vascular and nerve anastomosis on biological material

Not to mention, all the above activities will take place in a professional and friendly environment!

Have we caught your attention?

Check our website to find out more but don't forget that submissions end on the 11th of May 2018 .
