

SDA Bocconi School of Management, Italy

Master of International Health Care Management, Economics and Policy - in English

The Master of International Health Care Management, Economics and Policy (MIHMEP) is a one-year, full-time program in English.

It aimed at professionals who aspire to take on challenges of global management roles within the health care sector, whether it's private industry (pharmaceutical, medical device and biotech companies), government and international organizations or health care providers.

MIHMEP is the Master for you if:

- Your objective is an international career in the health care sector in private or public institutions
- You are looking for a professional, international and dynamic environment
- You want to be informed about the cutting edge thinking and skills on management and policy
- You are looking for a leading school with a strong reputation in management education
